SHAPING HUMANITY: TELLING THE HUMAN EVOLUTIONARY STORY WITH ART

presented by

JOHN GURCHE

Award-winning paleoartist, Museum of the Earth, Paleontological Research Institute, Ithaca, New York

Wednesday, February 12th @ 7:30 pm
Lesar Law Building Auditorium
Reception and book signing immediately following

9th Annual Darwin Week

What did earlier humans really look like? What was life like for them, millions of years ago? How do we know? Internationally renowned paleoartist John Gurche will describe the extraordinary process by which he creates forensically accurate and hauntingly realistic representations of our ancient human ancestors. His beautifully illustrated book entitled “Shaping Humanity: How Science, Art, and Imagination Help Us Understand Our Origins” literally puts flesh on the bones of our extinct ancestors.
